

## **GPRC Wolves Athletics Giving Program**

The success of the GPRC Wolves Athletics program is vital to the community on which it relies for support, and the generosity of businesses and individuals within our region has been the driving force behind our achievements for many years. Through this Giving Program, we aim to grow community involvement with and strengthen support for GPRC Wolves teams. We want our supporters to feel that our teams are, indeed, your teams, and to know that our successes are also yours.

When you invest in **GPRC Wolves Athletics**, you are:

### **Serving our Students**

Research has shown that participation in collegiate athletics may enhance a student's self-control, perseverance, and discipline. Exercise and nutritional habits are developed, which lead to better health. A competitive drive is encouraged and cultivated, which may ultimately translate to greater career development.

### **Strengthening our Community**

Athletes contribute significantly to our community, and our winning teams benefit not only GPRC, but the entire region. Investment in our athletics program ensures the region's top student-athletes stay here, and the best talent across the country is attracted to our community to study, to play, and to live here.

### **Supporting Industry**

Wolves athletes spend up to 30 hours each week training and competing, in addition to the many hours of study, research, and project completion they undertake to excel in their academic courses. The skills they acquire and their drive for success shape them to become valuable citizens. Our graduates are business owners and diplomats, scientists and teachers, nurses and physicians, office workers and oilfield workers, university professors and administrators, and professional athletes. Supporting Wolves Athletics means supporting future business and community leaders.
