**COURSE OBJECTIVES:**

To explore and develop the actor's instrument: understanding the connection between mind, body and voice.

To develop skills in various styles of improvisation and scripted drama and to apply them in ensemble work (which will result in performances).

To encourage self-assessment through written work.

To develop the student's creative ability.

**COURSE CONTENT:**

**In class presentation and participation:** this involves the progressive exercises and activities which occur in class time. You are required to fully participate.

**Written work:** Using text and class content the student will answer questions as provided by the instructor on a weekly basis. Written work will be collected bi-weekly and must be maintained and up to date.

**Group projects:** You are required to assemble yourselves into groups and create a short (minimum 20 minute) show - written, directed and acted by members of your group. These will be presented during class time and open to audiences. NOTE: plenty of additional out of class time will be required for your success in this area - consider this the equivalent of a term paper or final exam.

**The Lantern Tour:** We will be doing a project with the Grande Prairie Museum. We will be researching and creating a "living village" at the museum for an audience. Out of class rehearsal time may be required. There will be a written component to this work as well. You must participate, so make arrangements now if you have conflicts with these set performance dates : **October 19, 20, & 21.**
