Attendance:

This is a participatory course, NOT a reading course. While you are not graded on attendance, you are graded on your participation and the quality of that participation. If you do not attend you cannot participate. If you miss a class, there is no way to make it up. Many activities are sequential. Interruption of the sequence by absence is detrimental to the quality of your work and understanding. As well, because many activities are group oriented, your absence will affect others. More than ONE unsanctioned absence; or excusable absences in excess of 10% of the total number of classes for the course may result in a student being requested to withdraw. As well, students will not be admitted to class late. Be a few minutes early so you are ready to begin at the appointed time.
