

DEPARTMENT OF NURSING EDUCATION AND HEALTH STUDIES

COURSE OUTLINE – FALL 2011 and WINTER 2012

NS 3010 – 3.0 (3-0-0) 45 HOURS, TWO TERMS YA2/YB2

INSTRUCTOR: Deena Honan
(Research) **PHONE:** 780-539-2784

OFFICE: J208 **E-MAIL:** dhonan@gprc.ab.ca

INSTRUCTOR: Louise Rawluk
(Research) **PHONE:** 780-539-2037

OFFICE: H230 **E-MAIL:** lorawluk@gprc.ab.ca

OFFICE HOURS: Office hours vary. Consult with course instructor for details.

NOTE: Foundational research concepts (approximately 8 hours) offered in Years One and Two are important prerequisites to NURS 3010 (*see the Concept Map for Research & Statistics for the foundational research concepts to be included in the First and Second Years*). NURS 3010 is integrated with the NS 3900 and NS 3940 Learning Packages.

PREREQUISITES:

Nursing Research & Statistics I (Fall Term)

Statistics

Nursing Research & Statistics II (Winter Term)

Statistics

COREQUISITES:

Nursing Research & Statistics I (Fall Term)

Corequisite: NS 3900.

Nursing Research & Statistics II (Winter Term)

Corequisite: NS 3900.

REQUIRED TEXT:

Loiselle, C. & Profetto-McGrath, J. (2011). *Polit and Beck. Canadian essentials of nursing research*. (3rd ed.). Philadelphia: Lippincott.

RESOURCES:

LoBiondo-Wood, G., & Haber, J. (1998). Nursing research in Canada (2nd ed.). Toronto: ON.: Mosby.

JOURNALS:

- ♦ Canadian Journal of Nursing Research
- ♦ Clinical Nursing Research
- ♦ Western Journal of Nursing Research
- ♦ Evidence-Based Practice

CALENDAR DESCRIPTION:**NS 3010 3 (3-0-0) UT 45 Hours**

This course provides an introduction to the process of research through a comparative analysis of selected studies exemplifying different theoretical, methodological, and analytical approaches. Emphasis is on the communicability of research, the needs of the research consumer, and the development of skills of critical appraisal.

COURSE DESCRIPTION:**Fall Term:**

This course is designed to develop the student's knowledge and appreciation of the research process, of the relationship between research, theory, and practice, and as an introduction to the process of research through critical appraisals of selected quantitative and qualitative studies. Emphasis will be on understanding the research process and in knowing how to critically read, analyze and begin to apply the knowledge gained from research in practice. The focus of this course will be the planning phase of the research process which includes: research problem and purpose, literature review, theoretical/conceptual frameworks, variables, research questions and hypotheses, ethics of research, and research designs.

Winter Term:

Students will continue to develop their skills to critically read, analyze and begin to use knowledge gained from research in their practice. The focus of this course is on the implementing phase (population and samples, descriptive statistics, data collection, data analysis, interpretation of findings). Students will also examine trends and issues in developing evidenced-based practice for the profession of nursing. Also included in this course are inferential statistics.

CREDIT:**NS 3010 3 (both terms 3-0-0 in 14 weeks).**

Credit will be granted for one of NS 3690, or NS 3010 and Statistics[*3].

CONTACT HOURS:

NS 3010 consists of three hours of research instructional time per week plus a three hour research lab. Additional hours for independent study and group work required.

DELIVERY MODES:

The course work includes lectures, class discussions, individual and group work, in-class practice exercises and student presentations (both written and oral).

Students will participate in a number of activities to assist in meeting the objectives of the course:

1. Class Attendance

The purpose of the class time is to highlight primary concepts of the research process and to develop the student's ability to understand and critique published research through discussion of critiques. In class, essential concepts related to nursing research and statistics will be discussed. Additionally, students will have the opportunity to discuss group critiques of selected articles to assist in understanding the concepts.

2. Small Group Work

The purpose of this activity is to provide students with an opportunity to critique selected aspects of a published research study using the critiquing criteria. The instructor(s) will select various research reports which the students are asked to critique. Students are expected to read each assigned research report and answer the critiquing questions included in the course outline or as provided by the course instructor. For example, prior to the class on the planning phase of the research process, students will be expected to critique the research problem /questions, literature review, theoretical framework and hypothesis in the assigned article.

Students are encouraged to work in pairs or small groups to complete their research study critique (answer the criteria questions). During class, students will be asked to discuss and or present their evaluation of the selected aspects of the research report. Opportunities for discussion, debate and consensus will be provided in this course. Critical thinking should be emphasized throughout the process.

3. Appraising Findings from Multiple Studies

The importance of appraising findings from multiple studies related to a nursing practice issue for guiding practice will be the focus of this activity. In addition to the article(s) selected in NS 3010 for critique, students are expected to brainstorm research questions within their NS 3900 and NS 3940 tutorial classes.

OBJECTIVES:

Fall Term:

1. Describe the purpose and importance of research in nursing.
2. Describe how theory, practice and research are related.
3. Identify a question from nursing practice that can be answered by research.
4. Describe the role of nurses in research.
5. Apply critiquing criteria for the critical analysis of the following sections of a research report: research problem and purpose, literature review, theoretical/conceptual framework, variables, research questions and hypotheses, research design, ethical components6. Compare the major characteristics, strengths and limitations of quantitative and qualitative research.
7. Explain the meaning of internal and external validity of research.
8. Develop a systematic approach for reading and critical analysis of selected components of published research.

Winter Term:

1. Discuss population, sample, and sampling procedures.
2. Discuss the types, advantages, and limitations of data collection methods used in both quantitative and qualitative nursing research methods.
3. Identify the criteria for determining the validity and reliability of measurement tools.
4. Describe the four levels of measurement.
5. State the purpose of descriptive statistics.
6. Critically analyze the descriptive statistics used in published reports.
7. Discuss the criteria for determining confirmability of findings in a qualitative study.
8. Identify appropriate data collection methods for various qualitative and quantitative designs.
9. Differentiate data analysis methods for both quantitative and qualitative research.
10. Identify the purpose of and appropriateness of commonly used inferential statistics.
11. Distinguish between type I and type II errors and their effects on findings.
12. Differentiate between the meanings of statistical significance and clinical significance.
13. Apply critiquing criteria for an analysis of a complete research report.
14. Develop a systematic approach for reading and critical appraisal of multiple published research reports in their entirety.
15. Determine the applicability of knowledge gained from research for evidence-based practice.
16. Identify the role of a nurse in promoting research activities and using knowledge from research in the practice settings.
17. Discuss issues including barriers and facilitating factors influencing the advancement of nursing research and evidence-based practice

TRANSFERABILITY:

NS 3010 is part of the block transfer agreement with the University of Alberta in the Collaborative BScN Program. Admission to the fourth year of the Program and registration at the U of A will be contingent upon confirmation by the Faculty of Nursing that the first three years of the Program have been completed with satisfactory academic standing. For promotion to Year 4 at the U of A, a student is required to pass all previous courses and obtain a minimum cumulative GPA of 2.0 on a 4.0 point scale in the first three years of the program. If these conditions are met, the student will be granted a block transfer of work completed at GPRC to the U of A record.

Note: Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability

GRADING CRITERIA AND EVALUATIONS:

EVALUATION FOR NS 3010

FALL 2011

1. Part I: Critique of the Research Value: 20% of Final Grade

Students will critique **an instructor chosen research report** (either qualitative or quantitative) using the criteria outlined in the specified text boxes and information from seminars and lectures. APA writing format is to be used.

The critique will focus on the following topics:

1. The Research Problem (p. 127, Box 6.1)
2. The Research Question or Hypotheses (p. 127, Box 6.1)
3. The Literature Review, (p. 147, Box 7.1)
4. The Theoretical Framework if applicable (p. 165, Box 8.1)

Total length of the critique will be a maximum of 1000 words.

Please refer to the Grading Guide which is located at the back of the course outline for further details.

Due Date: Group A: October 7, 2011 at 1300

Group B: November 25, 2011 at 1300

2. Mid-Term Examination:

Value: 30% of Final Grade

Examination questions will include information from labs, seminars, lectures and the textbook.

Note: Please refer to the *Grande Prairie Regional College* calendar 2011-2012 for the Academic Regulations that pertain to Examinations and Examination Procedures.

Group A:

Date: October 19, 2011

Time: During class time

Place: Designated classroom

Group B:

Date: TBA (during exam week)

Time: TBA

Place: Designated classroom or gym

EVALUATION FOR NS 3010

WINTER 2012

1. Critique of the Research Part II

Value: 20% of Final Grade

Students will critique the **same** research report (qualitative or quantitative) from the fall semester using the criteria outlined in the specific text boxes and information from seminars/lectures. APA writing format is to be used.

Students will critique the following topics:

1. Population and Sampling
 - i. (p. 271, either Box 12.1 for quantitative or Box 12.2 for qualitative)
2. Data Collection
 - i. (p. 309, Box 13.6)
3. Evidence Ethical Review of the Study and Protection of Human Rights
 - i. (p. 103, Box 5.2)
4. Data Analysis
 - i. (Quantitative, p. 380, Box 15.2; Qualitative, p. 411, Box 16.2)
5. Reliability and Validity, Trustworthiness of Study
 - i. (p. 331, Quantitative, Box 14.1; Qualitative, Box 14.2)
6. Interpretation and Discussion of Findings (include implications for nursing practice)
 - i. (p. 435, Box 17.1)
7. Overall evaluation of the study (recommendations for future use)

Total length of the critique will be a maximum of 1000 words.

Please refer to the Grading Guide which is located within the course outline for further details.

Due Date: Group A: February 3, 2012 at 1300

Group B: March 30, 2012 at 1300

3. Final Examination:

Value: 30% of Final Grade.

Questions will arise from labs, seminars/lectures and the textbook.

Note: Please refer to the *Grande Prairie Regional College* calendar 2011-2012 for the Academic Regulations that pertain to Examinations and Examination Procedures.

Group A:

Date: February 17, 2012

Time: During class time

Place: Designated classroom

Group B:

Date: TBA (during exam week)

Time: TBA

Place: Designated classroom or gym

Total 4-Point Equivalent Value is Translated to Final Grade

Grades for each assignment were translated into the 4-point equivalent, and then multiplied by the percentage of total mark for each assignment. The values of those percentages are added up to make a total. That total is converted back into the grade scale to receive your final grade. If you have any questions or concerns, please see your tutor. Exams can be viewed by setting up an appointment with your tutor.

| Evaluation: | Date and Time: | Percentage of Total Mark: |
|-----------------------|---|---------------------------|
| FALL 2011 | | |
| Critique Part I | Group A: October 7 Group B: November 25 | 20% |
| Research Midterm Exam | Group A: October 19 Group B: TBA (during exam week) | 30% |
| WINTER 2012 | | |
| Critique Part II | Group A: February 3 Group B: March 30 | 20% |
| Research Final Exam | Group A: February 17 Group B: TBA (during exam week) | 30% |

Note: Refer to the 2011-2012 GPRC calendar for further details regarding the grading policy and the progression criteria in the Bachelor of Science in Nursing program.

A grade will be assigned for each assignment using grading criteria and then based on the grade descriptors (excellent, good, satisfactory, poor). Rationale will be given as to the assigned grade.

Note: In order to pass NS 3010:

Students may receive a grade of D or D+ in an assignment or component of a course, but must have an overall grade of C- to achieve a passing grade in a nursing course.

| GRANDE PRAIRIE REGIONAL COLLEGE | | | |
|--|---------------------------|------------------------------|--|
| GRADING CONVERSION CHART | | | |
| Alpha Grade | 4-point Equivalent | Percentage Guidelines | Designation |
| A⁺ | 4.0 | 90 – 100 | EXCELLENT |
| A | 4.0 | 85 – 89.9 | |
| A⁻ | 3.7 | 80 – 84.9 | VERY GOOD FIRST CLASS STANDING |
| B⁺ | 3.3 | 77 – 79.9 | |
| B | 3.0 | 73 – 76.9 | GOOD |
| B⁻ | 2.7 | 70 – 72.9 | |
| C⁺ | 2.3 | 67 – 69.9 | SATISFACTORY |
| C | 2.0 | 63 – 66.9 | |
| C⁻ | 1.7 | 60 – 62.9 | |
| D⁺ | 1.3 | 55 – 59.9 | POOR |
| D | 1.0 | 50 – 54.9 | MINIMAL PASS |
| F | 0.0 | 0 – 49.9 | FAIL |
| WF | 0.0 | 0 | FAIL, withdrawal after the deadline |

STUDENT RESPONSIBILITIES:

Important Dates:

Information about last day to change registrations and dropping full-year courses has changed and the updates are available on the GPRC website.

Nursing Program Policies

Please refer to the *Grande Prairie Regional College* calendar and the *University of Alberta Collaborative Baccalaureate Nursing Program with Grande Prairie Regional College Student Handbook 2011-2012* for specific nursing program policies that may pertain to this course.

Assignment Policy:

Research assignments are due at the date and time they are due in the front office and must be verified (stamped with date and time) by Nursing Office Personnel. Extensions on assignments may be granted and must be negotiated with the instructor prior to the due date and with a date specified for late submissions. Extensions will not be granted the day the assignment is due. A penalty of one letter grade per day will be deducted from the final grade of a late assignment. For example, a paper graded at a C would receive an adjusted grade of C- if handed in one day late.

It is the responsibility of the student to ensure electronically submitted papers and assignments are delivered and retrievable to the instructor (i.e. emailing assignments). If the instructor is unable to open documents or if documents are sent in error via electronically, the assignment will be considered late and the student will have one letter grade deducted from the final grade. It is highly recommended that students ensure their assignments have been retrieved by the tutor prior to the due date and time.

STATEMENT ON PLAGIARISM AND CHEATING:

We expect honesty from our students. This demands that the contribution of others be acknowledged (GPRC Calendar, 2011-2012). Penalties will be given according to the degree of the plagiarism or cheating. If you are unsure whether an action is plagiarism or not, please consult your course tutor. Cheating refers to dishonest conduct such as speaking in an exam, bringing written material not authorized by the tutor, tampering with grades, or consciously aiding another student to cheat.

Please refer to your rights and responsibilities in the Grande Prairie Regional College 2011-2012 Calendar.

Refer to the Student Conduct section of the College Admission Guide at <http://www.gprc.ab.ca/programs/calendar/> or the College Policy on Student

Misconduct: Plagiarism and Cheating at www.gprc.ab.ca/about/administration/policies/**

**Note: all Academic and Administrative policies are available on the same page.

LAB SCHEDULE:

LAB
FALL 2011
Group A and Group B
(3.0 hours total)
Dates and Times of Labs TBA

The focus of this lab is:

Nursing Research: A nursing clinical situation related to one of the scenarios in NS 3900 will be provided. Students will describe the research phenomena, develop a research question, identify a population to study, and develop a quantitative research method to examine the research question.

LAB
WINTER 2012
Group A and Group B
(3.0 hours total)
Dates and Times of Labs TBA

The focus of this lab is:

Nursing Research Lab: Qualitative Analysis

1. Students will review transcripts of a tape recorded interviews, provided by the instructor.

2. Students will perform a content analysis on data in the transcript provided and begin to thematically analyze it.
